FARC, Inc

2008-09: PRESS RELEASE!

New for the Orals!

FARC: PODIATRY ORAL BOARD EXAMINATION SOFTWARE™ on CD-ROM - **or email** - *by popular demand!*

You know the oral portion of any podiatry board examination is the toughest part, and you can never be too prepared! Responding to your needs, this unique new FARC product - PODIATRY ORAL BOARD EXAMINATION™ preparation software on CD-ROM - is a customized comprehensive 250 question and answer repository of all the topics you will ever need to study for any ORAL BOARD examination in podiatry.

Use PODIATRY ORAL BOARD EXAMINATION™ preparation software alone - as a specifically designed electronic oral study guide - or as the ideal integrated companion suite with our *Keystone Interactive Written Q-A Board Examination Simulation Software™* and/or the comprehensive *FARC Library of Podiatric Medicine and Surgery™*. We include all types of oral formats and psychometric architectural models: (a) rote memory, (b) clinical (c) experiential, (d) experimental (e) comprehensive free-form and (f) brief-response. We even include “psychological stressor questions”, as well as the contentious and oft-denied “points-to-pass” and “points-to-fail” oral question formats.

And, as a professional courtesy, the PODIATRY ORAL BOARD EXAMINATIONS on CD-ROM™ also provides an *insider's look* into the private and mysterious world of podiatry oral board examination preparation - *from the examiner's perspective* - truly fascinating!

These custom designed products are designed for the following oral podiatry board examinations:

- American Board of Podiatric Surgery [ABPS]
- American Board of Podiatric Orthopedics [ABPO]
- American Board of Primary Podiatric Medicine [ABPPM]
- American Board of Multiple Specialties in Podiatry [ABMSB]
- Certified Pedorthotist Examination [C.Ped]
- American Professional Wound Care Association [APWCA]
- National Board of Podiatric Medical Examiners [NBPME]
- American Board of Lower Extremity Surgery [ABLES]
- American Council of Certified Podiatric Physicians & Surgeons [ACPPPS]

And so, we ask:

- Why loose up to \$10,000 in office production to sleep through a seminar review course?
- Why spend \$ 3,500, or more, on tuition, room, board, food and travel arrangements?
- Why be humiliated and hassled at a board preparation “boot camp” of egotistical experts?
- Why purchase traditional, but dated printed study guides?
- Why be “bored by the number” of superficial study guides?
- Why use expensive Internet broadband access to “lease” subscription content, when you can own?
- Why use advertiser-driven and poseur products, when you can use the unbiased industry leader?
- Why use any other solo product, when you can harvest an integrated suite of educational tools?

WHEN YOU CAN study with genuine Podiatry Prep™ software by FARC, Inc – guaranteed to pass™

ABOUT FARC, Inc

With nearly two decades experience, FARC Inc and PodiatryPrep™ is the world leader in podiatric test preparation. We have helped more than 6,000 students and medical practitioners prepare for the tests and examinations needed to achieve their educational and career goals. PodiatryPrep™ offers a complete line of preparation tools; from the National Board of Podiatry Examiners for podiatry students, interns, residents and fellows - to professional state licensing tests - and all board certification examinations and re-certifications in medicine, surgery and related derivatives.

FARC experts also provide medical practice management, health economics, financial planning and business consulting services and seminars to practitioners, states, regional and national medical societies.
