

THE COMPETITION?

Although we launched the first podiatric medical and surgical print - and then computer based - study guides more than two decades ago, a few slow followers still exist with products of a last-generation variety. You know the companies – QA test banks only. No educational content. Old and out-dated printed books. No CBC – CPT or COGNITIVE styled QAs. No A.I. or big data analytics; etc.

So, don't be fooled by imposters. Insist on *genuine PodiatryPrep.org* electronic study guides.

PODIATRYPREP.ORG versus COMPETITION

CONTENT	650 pages	varies
ROTE QAs	710	varies
